Marietta Police Department now offers Online Reporting

The Marietta Police Department is pleased to announce a new convenient service for the public to report non-emergency crimes to the police department online. Entitled "Police 2 Citizen (P2C)" the new program allows Marietta citizens access to the police department via the internet to report non-emergency crimes occurring within Marietta city limits. Non-emergency crimes and incidents that may be reported include misdemeanor larcenies, lost property, noise ordinance violations, contact persons, nuisances, criminal trespass, and suspicious activities.

This program is provided as a service to save time for the citizens and allows officers to remain on patrol and in service for emergency calls as a result. This program does not take the place of citizens calling 911 in emergency situations or calls that require citizens to meet with officers in person.

Another exciting aspect of the program is now citizens can print their own accident reports, free of charge, through the website. With the required information a citizen will be able to print accident reports instead of having to pick these reports up at the police station in person.

The P2C program can be accessed through the Marietta Police Department's website at mariettapd.com. There are quick links on the home page for filing reports and getting reports, once a report is submitted through the website a police supervisor will receive the report and assign it a case number then the report will be

assigned to the appropriate division for investigation if warranted. The citizen reporting the crime will receive a response email confirming receipt of the report along with a link in order to track the status of the report.

The Marietta Police Department is continually striving to develop programs such as this one that offer convenience to the citizens and improve the quality of life in Marietta. This P2C Program is a win-win for both the citizens of Marietta and the police department.
